

AMdEX

AMdEX community session 11th of May 2023

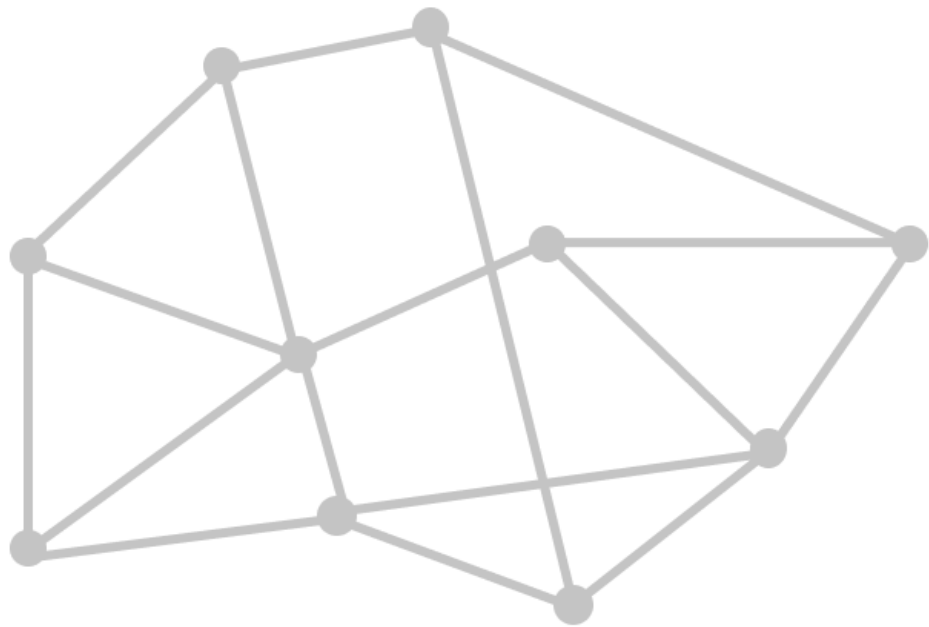

De ontwikkeling van AMdEX wordt financieel ondersteund door het Europees Fonds voor Regionale Ontwikkeling en de Provincie Noord-Holland.

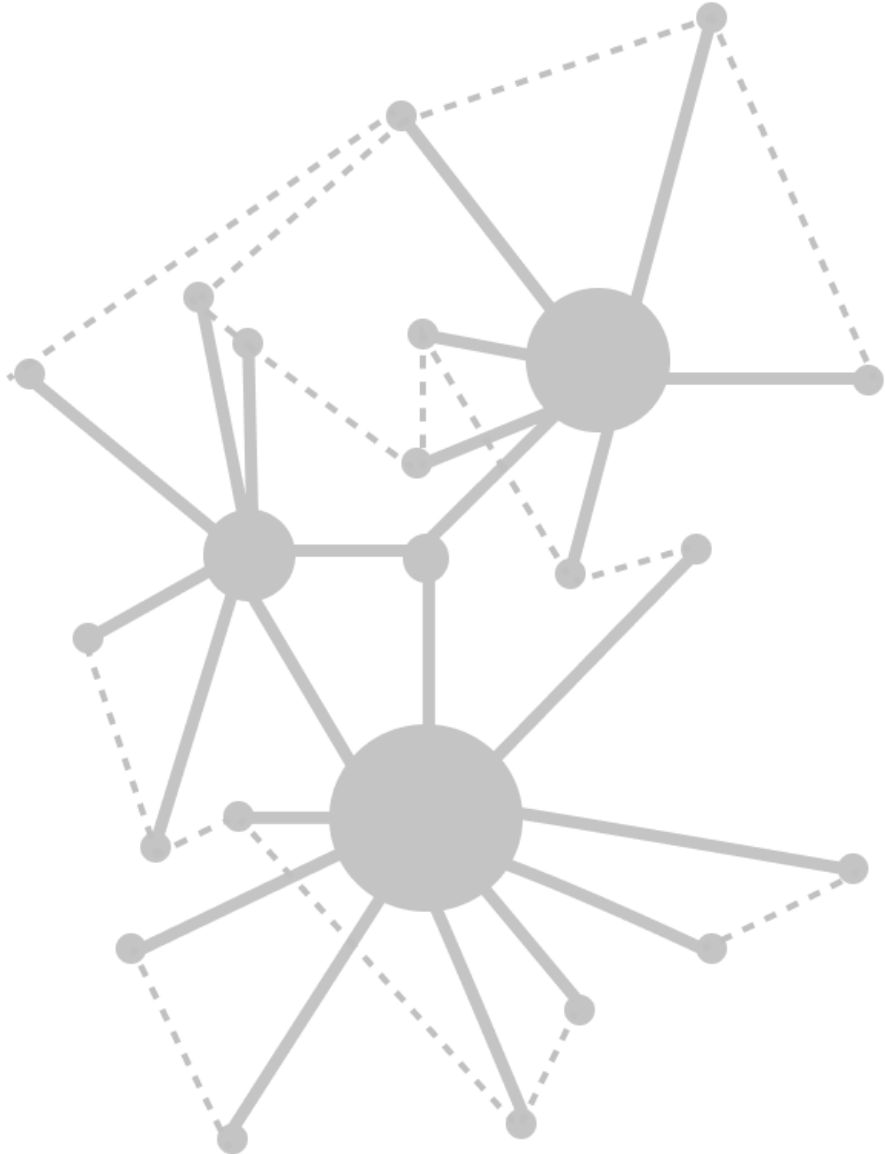

AMdEX mission

“To develop a digital notary. Offering legal contracts to organisations that want to share data. Even the most sensitive data. AMdEX translates your data-sharing agreements into machine-readable policies that can automatically be enforced. AMdEX saves you manual work, time and money.”

Voordelen

- Fair level playing field, gelijke kansen voor aanbieders van data diensten onafhankelijk van middelen.
- Meer data voor innovatie door groter vertrouwen, door policies digitaal vast te leggen, af te dwingen en auditable te maken.

Design vragen

- Bij wie zitten de *orchestrator* en *reasonor* van AMdEX?
- Waaraan moet AMdEX voldoen voor service providers om op aan te sluiten?
- Hoe integreren we met iShare, FIWARE, GAIA-X etc?
- Hoe interpreteer je wet en regelgeving juist?
- Wat is het governance en business model van AMdEX?
